Dear The Federal Communications Commission,

The flat-fee Universal Service Fund proposal is unfair. I urge you to oppose this plan. The flat-fee would mean a tax hike for people like me -- consumers that use prepaid cellular phones or make few long distance calls.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls - high-volume residential or business customers. I urge you to reject this flat-fee proposal.

Sincerely,

Dale Osborn HC 63 Box 94 Jay, OK 74346
